**The window**  
*to your world*

# Fairview Architectural

**Beautifully designed and meticulously built, Fairview Architectural windows and doors offer the ultimate in flexible design and performance, turning ordinary spaces into stunning masterpieces.**

Whether it's a small hallway window or an expansive floor-to-ceiling sliding door, every product has been designed to blend seamlessly, so no matter the size, you'll get a consistent look throughout your home.

The range is extensive, the look contemporary and clean, with options extending from square, flat, contemporary styles to more substantial, 'boxy' or industrial looking alternatives, for those stand-out feature pieces.

## Overview

- *Contemporary, clean lines with either a flat or boxy internal profile*
- *Consistent look throughout your home, regardless of the size of your windows and doors*
- *Large panel sliding/stacking doors to make the most of your views*
- *Extensive range of product solutions - customisable to meet your project needs*
- *Premium features such as colour-matched hardware*
- *Huge selection of colours and finishes*
- *Full range of product options*

## Finished aesthetic

Fairview Architectural offers an extensive range of product solutions. Whether you need ventilation or natural light in a small room, or want to connect or expand your living spaces, almost anything is possible. All with a consistent and contemporary exterior look.

Your local Fairview experts can help you create spaces that suit your home and surroundings and show off your unique sense of style. Whether you want to make a statement with a boxy, industrial look or add a modern touch with a flat, refined finish, the options are almost limitless.

## Energy efficiency

Your new Fairview Architectural windows and doors can help improve the liveability of your home, and increase your wellbeing. And when you add high performance glass solutions, the benefits are even greater.

Thermal efficiency of windows and doors is measured by R-value. This is the thermal resistance of the total window system (including glass, thermal spacer and joinery). The higher the R-value, the less heat is lost through the system, and the better the insulation.

Your Fairview manufacturer can show you exactly what R-value rating each of your windows and doors (and the combined value across your whole house), can achieve.

Note: All sizes are typical rather than definitive. Please talk to your local Fairview manufacturer for specific details for your project.

## Product range consisting of:

- Fixed, awning and casement windows
- Bi-fold windows
- Sliding windows
- Hinged doors
- Bi-fold doors
- Sliding and stacking doors

## Glass choices

Choosing the right glass for your windows and doors is as important as choosing the frames. The right glass can maximise light, reduce heat loss, provide sound protection or minimise fading of your furnishings.

If you're looking for increased energy efficiency and an even more comfortable living environment, adding Low E high performance glass and argon gas to your double-glazed unit provides even better results.

Our friendly Fairview experts can help you decide which glass solutions will work best for your home.

## Finishing touches

You can be as creative as your heart desires. Choose from our huge range of standard powder coat colours, plus many additional special colours and finishes.

Our powder coatings are warranted for 15 years for residential applications\*, making them the longest warranted powder coatings on the market.

If you are after a real-wood look, you can recreate the beauty of a wood-grain finish with EUROWOOD®

\*Speak to your Fairview manufacturer for more information about colour and film integrity, and our warranties.

## Hardware

Whether you're after subtle curves, clean minimalist lines or a strong feature, Fairview has the perfect finishing touch. Our Stella and Alba ranges of contemporary aluminium door and window handles can be colour-matched to your joinery. Or make a bold statement with the stunning Verta range of hardware, crafted from solid, 316 marine-grade stainless steel.
