

AEONOX™

Scratch-Resistant Powder Coat Technology

WINDOWS & DOORS DESIGNED TO BE LIVED IN

AEONOX™, a new breakthrough powder coating solution from Fairview offers a scratch-resistant technology that protects the surface of your windows and doors.

AEONOX™'s advanced formulation minimises the risk of joinery becoming damaged throughout the manufacturing and installation process, and reduces abrasions from the wear and tear of everyday living.

Our toughest powder coat on the market to date promises to stand the test of time and offers reassurance that any new installation to the home will be both a seamless process and an exceptional end result.

FAMILY-FRIENDLY

AEONOX™ is ideal for use in high-wear areas where the kids or pets may play.

Unlike other powder coat products, **AEONOX™** has an exceptional scratch resistant formula that ensures minimal damage when daily wear and tear occurs around the home.

With a 15 year Interpon warranty* and tough texture finish, **AEONOX™** ticks all the boxes for homes that require minimal upkeep and guaranteed reassurance.

ECO FRIENDLY

AEONOX™'s robust nature allows for significant reduction of waste throughout the manufacturing process in our powder coating factory.

Packaging materials are also reduced for transportation, making it one of the lowest ecological footprints compared to other coating alternatives.

COLOURS

AVAILABLE IN SEVEN MATTE COLOURS

AEONOX™ White

AEONOX™ Silver

AEONOX™ Titania

AEONOX™ Sandstone Grey

AEONOX™ Ironsand

AEONOX™ Flaxpod

AEONOX™ Black

Please note **AEONOX™** is not available in a gloss finish.

Colours are a guide only; due to the nature of the printing process some degree of colour and gloss level variation may occur. We recommend that you use production line colour swatches for final colour selection and approval.

650_x

More scratch-resistant than other powder coat solutions**

ARCHITECTUAL PERFORMANCE

AEONOX™ offers architects and their client's peace of mind that they are installing top of the line technology that has less chance of damage, particularly for projects where larger windows are a crucial part of the design concept.

AEONOX™ can also be specified in all NZ3604 zones and on any building location and height, including sea level, to provide ease of specification for project designs of a larger scale.

SEAMLESS MANUFACTURING AND DELIVERY

AEONOX™'s fine texture finish minimises chances of damage occurring throughout fabrication in the factory and also allows for safer deliveries, even with reduced packaging.

SMOOTH INSTALLATION

AEONOX™ significantly lowers the risk of damage occurring throughout the installation process that often comes from tools and equipment rubbing against the joinery.

CARE & MAINTENANCE

Please refer to our official care and maintenance guide at www.fairviewwindows.co.nz to learn more about how to clean and care for your joinery.

Remember aluminium joinery is low maintenance, not no maintenance.

*For detailed AEONOX colour and film integrity information, visit www.fairviewwindows.co.nz/warranties.
